WRITE YOUR REFLECTIONS ON DAY 1

1ST ACTIVITY

Be hardworking and work be him/her self to work on the common target

Skills and qualities of a successful social entrepreneur

His/her speech to be inspiring and can persuade people towards his/her goals of social company

sports field, sights, administrative centers, identify characteristic of the population... place yourself in it Write down an issue that troubles you in your neighborhood / community and that you would like to

exchange ideas, respect others opinions

Do we all beleive that founding a social entreprise is the only and best solution?

ABOUT IO1

Be authentic

empathy

be innovative

Leadership Skills, Disclipine, Research Skills, Self-awareness, Empathy, Confident,

Problem-solving approach

Afrodity- It was very interesting

Assertiveness

Resilience

Clara- I was not familiar and understood more about social entrepreneurship

Creative thinking

Communication skills

Social consciousness, positivism (to motivate the team)

experience, trust, priorities

Consensus - same ideas, different perspectives

Eleyutheria- I didn't know many things about entrepreneurship and I wait to learn more during the training

how get consensus?

FEEDBACK to Activity 1

Leticia - most of the skills we have identified are soft-skills (which I think is an interesting point to reflect on)

Myrto - Thinking of everyday problems and their solutions was challenging. Also working in teams helped us to carry through with our ideas and be more openminded. It was an interesting activity.

FEEDBACK to Activity 2

Georgia- Indirect questions you end up having a result about your self

Dora - Teams are a necessity when we wish to address social problems

maybe it is better to assess personality indirectly and not to ask directly about person characteristics

and try to understand their roles or to Start from the activity and then based on what participants said to go to the Roles presentation and theory. I think now we just wrote down like copy paste what we think we need in the group. Another idea

just a challenge for solving a problem but then I realized that it was for understanding how people behave in a group and what is your role. It was mind blowing. The second part of the activity was also good. That all participants wrote the

Konstantina - I think that it was very interesting to try to provide solutions for problems existing in a certain area. And also it was very interesting the way the team worked (voluntarily taking up certain roles)

Alexander - Team composition is more important/complex than I thought

Asimina- The important thing after the activity was that the TEAM is very important in a social cause!

be, Since we make it virtually to ask precisely who will answer a question in order not the same persons have to, or take anyway the speech. 2. To involve each participant in writing his/her answer in each question in a

Andrea G- I think that it was useful to think about what different attributes we all have that can make us a good leader

2nd Activity

issue you have selected you must now decide how to make a difference and what needs to be done to make your social enterprise successful . Who will run the enterprise and why? Name your group members, what

FSC team
Plant: Irene
Resource Investigator-Monitor
Evaluator: Mary
Team worker: Lena
Completer:Popi
Specialist: Dora

We think that all group members should be team-workers

Coordinator

Implementer

CIP team

C.i.P. team, Georgia: coordinator because she is good at facilitating and implementing ideas. Also, team worker because she tries to find a bridge of communication among people.

MC2020 team

C.i.P team, Eleutheria: Implementer, she turns ideas into a plan and a concrete set of actions. Furthermore, she is a completer, always optimizing and perfecting her work.

Monitor-Evaluator

Shaper

resource investigator

CHALLEDU team

Coordinator-Monitor evaluator

specialists - for construction based interventions

In our team we will have the citizens, who can be separated according to their skills

Reflection of Day 1

First I was a little bit worried about the topic but after the part of the activities and the videos everything got more clear!

Overall, very interesting, and I am curious to see what is next :)

Dora: So nice to see most of the participants engaging in the activities and the discussion. I feel satisfied that you seem to have grasped the more applicable aspect of the guide that we were hoping you to.

Irene - just a quick reminder to ALL Please complete your personal MBTI questionnaire. Thank you!

Asimina- It was a great experience with all these activities and videos. Even for me that have supported the development of IO2 were new things that I want to search again!

I found really fruitful today's session! It has been great to see the results of IO2, good job team!

**Feedback on
Activity 3
Team building**

Big Picture ->
1. Involvement
2. Leading role
3. Trust
**4. Encourage to
mentor each other**
**5. Give detailed and
specific instructions
to avoid
misunderstandings**

**An enriching
activity. Thank
you so much!**

**Interesting to see
the different ways
people give
instructions and
communicate
within the team as
well as the results of
this procedure.**

**I agree with Georgia
that it is very
important for each
activity to write more
things about the
scope and results of
the activity. Maybe
even some topics to
discuss with
participants
afterwards. This is
important for all**

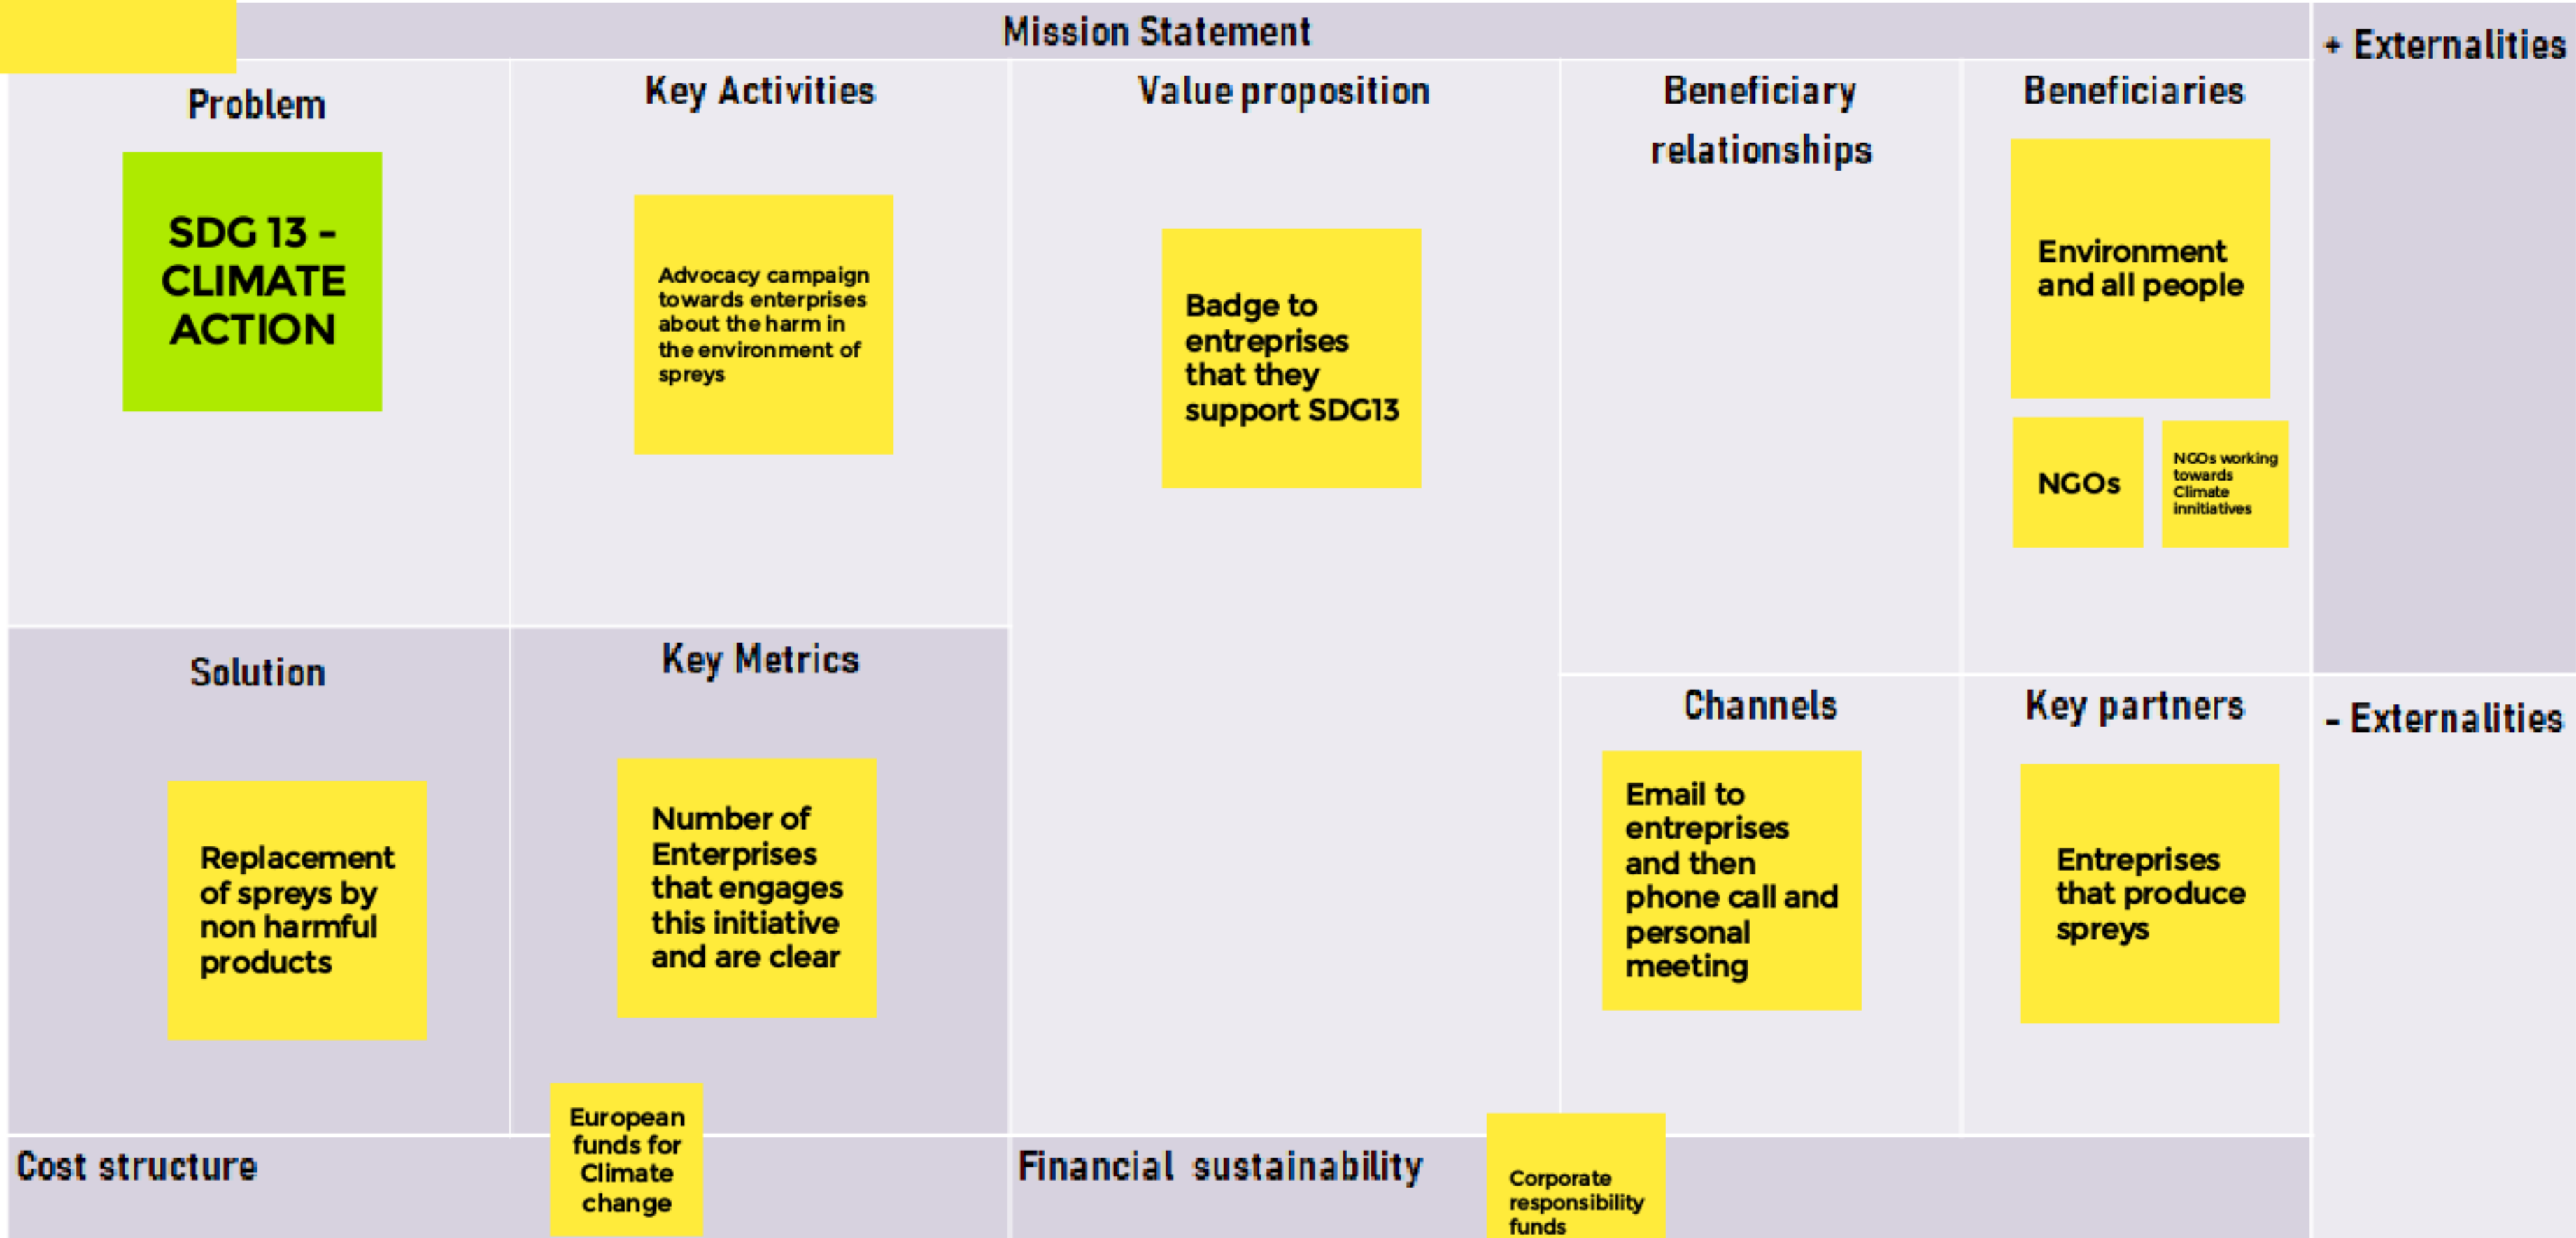

**I realised that
wanting to
help others in
your team
doesn't always
benefit them**

ACTIVITY 2: Try to find an innovative idea of social enterprise for solving a challenge based on a SDG: describe it briefly and try to complete the social business canvas

Reflections on Day 2

Konstantina-Very nice training, I liked the practice on Social Business canvas. It gives an other notion to a social entrepreneur to organize his/her idea on it.

Afrodity- I enjoyed it. I really like the last activity because we had the chance to brainstorm and turn an idea to a project. It goes beyond the theoretical and it is practical

was very informative! I really enjoyed the activity on Social Business canvas because we had the chance to work with people from other organizations and share our ideas on common issues that our society faces.

Andrea- Social Business canvas was important. We understood how much work we have to do in a social enterprise.

Irene 3- Leticia is very supportive and good in recongnizing the work done so far and smoothly empower others to go on

Georgia- The guide will be very fruitful

the guide. Now I understand how many tools exists in the guide. Very interesting guide and easy to follow the structure that I heard. The materials and tools and activities are good but I suppose that it is up to the

Leticia-All tools in the guide are practical and useful. Social business canva is of course very important in all ideas.

Leticia- We don't only need our skills but also what we are going to confront as a team

Georgia- The guide will be very fruitful

the guide. Now I understand how many tools exists in the guide. Very interesting guide and easy to follow the structure that I heard. The materials and tools and activities are good but I suppose that it is up to the

Irene 1-The guide is full of information and this presentation heped me sight out the tools

Leticia- Team building activity would be a turning point especially if we did it face to face. We are planing to do it in our organization

there were real examples, video and canva. The activity was very interesting. It was easy to collaborate. It also appears that when you have a plan like canva you can organize your work better. This really

Leticia- I had the feeling that you might loose the point and forgot the big picture. But with the presentation in training was useful for us to understand and remember what we are doing

interesting workshop. All the activities and presentation. I really liked the presentation that presented the key points of the guide and well elaborated examples with their websites. I also liked the activity with the canva. Thank

Alexander - The knowledge of today's training was completely new to me so the guide will be a very useful tool for the creation of the serious game

Leticia- That's why I included this activity. Some people might find it difficult to fill the canva. It depends on the facilitator and the participants.

related to business Canva is really useful. Sometimes young people we need a realistic example of the theories that are explained. So throughout this tool it could be seen how easy is to organize and plan a real business

Irene 2- the facilitator is the key to the assimilation of the theory and the effective use of the tools. We need to include relevant tips in both guides

Introductory activity: Please complete the SWOT analysis for the idea of social enterprise previously designed

STRENGTHS

Innovative

If we have the skill of writing proposals to fund the cause it is a strength

Network (schools, young people, volunteers)

We know there are alternative products and we will promote it

Group 1-Quick capacity of diffusion through social media channels

Know-how

our team

Digital marketing

Experience from other projects

Good relation among the team

Our value for a better waste management, offering a more sustainable city

WEAKNESSES

Limited state cooperation

Find enterprises to collaborate.

Group 1- Limited budget to start

No budget and equipment

Not adequate workforce

OPPORTUNITIES

People (in Europe) support initiatives towards Environmental change

Interest from state funding or Eu funding

There are funds for environmental issues

Group 1-Social awareness about the gender equality

Environmental awareness

Group 1- Capacity of social engagement and collaboration in terms of gender equality

Dealing with a global problem

Lack of recycling

THREATS

Public sector deals with recycle

COVID - 19

big industries and enterprises that produces these products are strong economically and have collaboration with most states

Group 1-Alternative projects of the similar topic

Competition by other social enterprises working on the field

Bureaucracy

Legislation outside Europe is not so strict

Group 1: Groups that are against gender equality (e.g. political parties)

Competition

Group 1

Social Media Canvas

Project name:

Date:

Version:

<p>Goal </p> <p>Write what success looks like for you.</p> <p>This is the "why". Focus on desired user actions. What action(s) do you want users to take? Common user actions are phone call, email, message, liking post, commenting, sharing, subscribing, joining drip campaign, etc. How do you measure success?</p>	<p>Content Topics </p> <p>Jot down a few key categories you can post around.</p> <p>This is the "what". Focus on content that adds value to your users. Common topics include success stories, helpful guides, testimonials, interesting news, "edutainment". Give your users what they want, not what you want. What problems can you help your user with? What entertains your users? It's not all about you. Share content from outside your industry that your users would find helpful. Review the performance of past posts to inspire future posts. Storytelling is a must. People tend to connect better with stories, not just factoids. Consider sharing user generated content.</p>	<p>Team </p> <p>Pick who will coordinate.</p> <p>This is the "who". Focus on responsibility. Main roles include posting, interacting with users, and outreach. Establish posting procedure, with one person overseeing all social media.</p>
<p>Channels </p> <p>Select which channels you want to leverage.</p> <p>This is the "where". Focus on platforms where your users are. Ideally, each channel has a different strategy. Remember that each channel has a unique culture. Don't overcommit. Focus on perfecting one platform at a time. Ensure each profile is set up correctly such as having a profile picture, header image, and completing the about section.</p>	<p>Content Format </p> <p>Identify what post formats your users prefer.</p> <p>This is the "what". Focus on what formats your users engage with. Formats include pictures, videos, gifs, short text posts, long-form text posts, live streams, podcasts, links, infographics, VR & 360 content, downloadable items, etc. Ensure your channel's support the content format you create. Not all topics deserve the same level of production quality. No content will be perfect. Remember that done is better than perfect.</p>	<p>Budget </p> <p>Outline your spending.</p> <p>If social media is a big part of your marketing, expect to spend money. Unless your content is highly shareable, you'll need to pay to extend its reach. Ensure your spending helps you reach your goal. Don't be afraid to change tactics if you aren't getting a good ROI.</p>
<p>Rhythm </p> <p>Plan when you will post on social media.</p> <p>This is the "when". Focus on posting consistency. Create a calendar for when and what you're going to post. Posting times matter. Optimizing timing can increase impact. Integrate with your larger marketing plan. Consider seasons and specials. Ideal time to post is based on your target users habits.</p>	<p>Content Tone </p> <p>Choose a tone to create the feeling users want.</p> <p>This is the "what". Focus on presentation and perception of your content. Your branding should dictate your tone. Your tone can be based on experience, style, luxury, performance, value, innovation, service, conscientiousness, and disruptiveness. See Denise Yohn's work for more details. Cultivate a personality.</p>	

REFLECTIONS on DAY 3

Irene-usefull tools that I did not know and I can use them for both my self as a free-lancer and the organizations I work with

Leticia - I found the activities amazing! They really help you developing a social start-up. I even have the feeling that after these 3 days we could create one!

Irene- well structured event, I had a good time, I didn't feel tired! Thus, I missed the trip to Spain :-)

Asimina- I liked this training very much because it had many hands on activities even though it was not implemented face to face. It was also good to cooperate all together and listed to the feedback of the participants

REFLECTIONS on whole TRAINING

Asimina- It was very fruitful. All activities presented. It will be good if we can have an attachment to the great guide that CIP has also created for HOOTSUITE

Andrea G- I think it was very interesting to learn about how to manage a Social Media campaign, as even if we are digital natives we lack a lot of information and it is a very useful tool to promote our different projects.

Asimina- I now want to create one more!!!Hahaha

Alexander - I m not really familiar with social media so today's information was really helpful. Thank you very much!

really helpfull. Not only contributes to your learning about business entrepreneurship, but also helps you to identify your personality and in which way it would be useful in a team. The activities are essential in order to make

Eleftheria - Although I am not familiar with entrepreneurship and business, the activities help me to understand how general thoughts could be put into action and make our society more sustainable!

Leticia - I have loved the LTTA, I really got to understand all the concepts we have been addressing in our guides. I have a clearer picture of the project (and of the topic of course).

Dora: So many interesting tools and activities. I feel ready to start implementing my social entrepreneurship idea (when I come up with a good one...)

Konstantina: for me the tools presented today were also very interesting. I have used some tools in another context than the one I used. Also, the combination of personas and social media strategy was very inspiring.

Afroditi - Inspiring! It showed me how I can turn ideas into action and the material used was appropriate. I learned about new tools that will be useful to me in the future.

Dora: It's so useful to get to the core of building your target group and determine the main aspects of an enterprise

whole project. Sometimes when you are the insider you cannot see it with a 3rd person's eye. It was very useful to finalise for me IO3 Part b. Now I have a clearer picture of what is useful and not and how to

I really enjoyed the activities, and the participants' comittment with the training

Myrto - The field of Inspire training was new to me. It was the first time I thought about how to build an enterprise from the start, think of the personas and the dissemination in social.

Dora: I knew social media were an important aspect of an entreprise but I feel delighted to understand the ways they are being used

Also, I really enjoyed the persona activity. It was an amazing opportunity to explore the idea in a very unique framework. Thank you Georgia <3

Myrto - I found the day's field very fresh and up to the point. Anyone who wants to build a social enterprise needs to be well-informed about social media and tools.

Andrea G- It was wonderful to share our different opinions about social entrepreneurship.

Clara: I wasn't familiar with some concepts so it was quite helpful, the activities were interesting and well-structured. The self-asesment tools in particular were very useful.

The tools presented are going to be very useful for us, not only to develop our campaigns, but also to know ourselves better, our objectives and our traits.

offer an interesting variety. It gave me an interesting insight of the self assessment tools. Also the activities for tools for structuring an idea for a certain enterprise as well as exploring customer segments were very interesting and for sure they will

Afroditi - Inspiring! It gave me a new reflection on many things and it will be useful to me in the future :):)
