INSPIRE SERIOUS GAME IS MORE THAN A GAME

It is an innovative psychometric game that asks young people to find solutions in challenges addressing SDGs, and deal with everyday activities and processes in a **social enterprise**. INSPIRE serious game is focusing on **assessing the skills and competences** of the players in terms of their **personality and career roles** so as to provide them guidelines on **how to form a strong team for their Social idea**. The player is transferred to an environment where s/he has to solve a problem based on SDGs. S/He should find the resources, plan a business model, enlarge his/her network, use social media and assess the impact.

During the game the player will **meet specific challenges** and s/he has to **choose between different options that create a unique environment**. The options are based on existing assessment tools explained in O2 training guide, while the business challenges and social media tactics are based on O3 training guide. At the end of the game the player receives an assessment on his/her skills and competences as well as his/her roles within a team. The game consists of levels which present in the end a business tool. After solving the challenge there are some tips on how to use these tools!

15, 16 & 18 OF JUNE: OUR SECOND LEARNING TRAINING ACTIVITY

The second learning training workshop will be held online and will be organized by Challedu.

It will focus in training the participants from partners organizations to use the INSPIRE game in personal or group workshops and to provide feedback for the beta (test) version of the game.

After it partners will organize local playtesting workshops with young people!

Moreover, relevant professionals, career advisors, youth trainers, teachers will be trained on the use of the toolkit of the project!
